coupe plate (like the examples starred ★ above) will run about \$42 per piece with a 72 minimum order. Of course, the price goes down (per piece) the more that is ordered.

How it works

1. First, we'll talk, and discuss your needs to make these plates perfect for you. Then, I'll show you (pdf or jpgs) a portfolio of one-of-a-kind designs you choose. Or, we can discuss a unique design together and work with you for a design are not available to anyone else. Once you select them, they are yours to keep.
2. Next, I'll get pricing and a schedule for you. A normal order takes about two months from this step — to delivery from the manufacturer. It may a bit longer based on design or scheduling of other projects.
3. After approval of the design, and a small deposit from you (half is refunded with your order), I will send over a prototype to you. This is an actual piece with the design. If it looks right (with your final payment), the manufacturer goes ahead with production.
4. Ta Dah! Delivery is made, and you have a special piece for your special store or event.
